

Green Hill Solar Farm

Newsletter

Thank you to all our stakeholders and the public for your collaboration and participation in the public consultation last year.

Following the public consultation, Green Hill Solar Farm Limited is launching this targeted consultation to gather input on specific proposed changes and provide an update on Green Hill Solar Farm (the "Scheme").

As previously outlined, the Scheme will comprise the construction, operation (including maintenance), and decommissioning of a solar photovoltaic (PV) energy-generating station and energy storage system within the administrative boundaries of West Northamptonshire Council, North Northamptonshire Council, and Milton Keynes City Council.

Targeted consultation information

The proposed changes are transport-related and are for ensuring sufficient land is available to facilitate vehicle access to the sites and the cable route corridor.

The land may be required for traffic management measures during the construction, operational or decommissioning phases.

There are 25 changes in total to the scheme boundary, and they are situated along Broughton Road, Kettering Road, Red House Lane, Moonshine Gap, Highfield Road, Mears Ashby Road, Earls Barton Road, B573, Station Road, A509, Easton Lane, A510 and A428.

The environmental team has assessed the changes and concluded that they do not introduce new or materially different significant environmental effects compared to the preliminary information already presented.

Detailed maps showcasing these boundary changes are available in our updated brochure and online materials.

The targeted consultation will run from 13 March - 10 April 2025.

You can access the Targeted Consultation Brochure and Feedback Form on our website and we encourage you to use these to find out more detailed information as well as leave your feedback.

Targeted consultation materials, such as the Targeted Consultation Information Brochure and Targeted Consultation Feedback Form, will also be available at Moulton Library to take away.

Preliminary Environmental Information Report (PEIR)

We have identified that a distribution error occurred during the public consultation last year resulting in the Preliminary Environment Information Report (PEIR), Non-technical Summary, and Statement of Community Consultation not being available in hard-copy at Moulton Library. These documents and the public Consultation Feedback Form will be available at Moulton Library during this targeted consultation for you to review. If you have any questions or comments, please contact the team directly.

Hard copies of the Targeted Consultation Information Brochure and the Targeted Consultation Feedback Form will also be available at Moulton Library to take away.

Providing feedback

You can provide feedback in the following ways:

Completing an online feedback form, available on our website:

www.greenhillsolar.co.uk

Sharing a completed feedback form with us via email or freepost:

info@greenhillsolarfarm.co.uk

FREEPOST GREEN HILL SOLAR FARM
