

# Island Green Power - Green Hill Solar Farm - Launch of Targeted Consultation 13 March – 10 April 2025

11 March 2025

Dear Sir/Madam,

We are writing to notify you that we are carrying out a targeted consultation about proposed changes to Green Hill Solar Farm since we completed our statutory consultation in December. The targeted consultation will run for 28 days, from 13 March to 10 April 2025.

## About Green Hill Solar Farm

Green Hill Solar Farm (the Scheme) is proposed on land that is in the administrative boundaries of North Northamptonshire, West Northamptonshire and Milton Keynes City councils. In total, it would cover approximately 1,200 hectares of land across 9 separate sites, referred to as Green Hill A-G and Green Hill BESS (Battery Storage Energy System). The BESS element of the Scheme is proposed to be located on Green Hill BESS, adjoining Grendon Substation to the west and south-east, parallel to Station Road, Grendon, and/or within Green Hill C.

## Changes Being Consulted on

As part of the design refinement, additional areas of land, predominantly within highways land, have been identified beyond the scheme boundary limits that were presented as part of the statutory consultation process. The proposed changes are transport-related and are for ensuring sufficient land is available to facilitate vehicle access to the sites and the cable route corridor.

The land may be required for traffic management measures during the construction, operational or decommissioning phases.

There are 25 changes in total to the scheme boundary, and they are situated along Broughton Road, Kettering Road, Red House Lane, Moonshine Gap, Highfield Road, Mears Ashby Road, Earls Barton Road, B573, Station Road, A509, Easton Lane, A510 and A428.

More details, including maps of the boundary changes, are available in the Targeted Consultation Information Brochure, which can be accessed online along with the Targeted Consultation Feedback Form at [www.greenhillsolar.co.uk](http://www.greenhillsolar.co.uk).

## Providing feedback

If you would like to provide feedback on any of these changes, a consultation feedback form is available on our website, or you can send your comments to us directly by email at [info@greenhillsolar.co.uk](mailto:info@greenhillsolar.co.uk) or by post to FREEPOST GREEN HILL SOLAR FARM (no stamp or further details required).

## Materials Available at Moulton Library

We have identified that a distribution error occurred during the statutory consultation last year resulting in the PEIR, Non-technical Summary, and Statement of Community Consultation not being available in hard-copy at Moulton Library. These documents and the public consultation feedback form will be available at Moulton Library during this targeted consultation for you to review. If you have any questions or comments, please contact the team directly.

Hard copies of the Targeted Consultation Information Brochure and the Targeted Consultation Feedback Form will also be available at Moulton Library to take away.

## Consultation

This targeted consultation will run for 28 days, from 13 March until 23:59 on 10 April 2025. During this time, we are inviting feedback on the changes to the Scheme detailed above.

Throughout this targeted consultation, we will continue to engage with stakeholders, including parish councils, Local Planning Authorities, and MPs, to provide project updates and address any concerns. We are committed to gathering and reviewing all the feedback we receive from stakeholders, following the same process we actioned during the statutory consultation.

In the meantime, if you have any questions, please email us at [info@greenhillsolar.co.uk](mailto:info@greenhillsolar.co.uk) or call our community relations freephone at 0800 0129 882.

Kind regards,

Lesley Giles  
Project Development Manager – Island Green Power
